Cleanline® Sticky Rollers from CEEC

Removes Contaminating Particles From Floors, Walls, Ceilings, Tabletops and Many Other Surfaces

- Cleanline® Sticky Rollers are as simple to use as a common paint roller. Each replaceable cartridge consists of a roll of adhesive coated substrate perforated into removable sheets similar to those of a Cleanline® Sticky mat.
- Simply roll the area to be cleaned as if you were applying paint.
- When the roll becomes too soiled to pick up any more contaminants, simply peel off the top layer at perforations to expose a clean layer.

Available in Two Adhesive Materials

- Foam Roller
  Made from a poly film/foam laminate which conforms to slightly irregular surfaces.
- Poly Roller
  LDPE film on a plastic, non-contaminating core.

Roller handles (sold separately) are available in 9”, 12” and 18” sizes.

Adjustable 3’-6’ and 6’-12’ extension poles are available.

Made in USA
